## No. 1, 2

## Issue contents

**J.A. Quine, P. Gunaratne, E.L. Organ, B.A. Cavener and D.R. Cavener**

Tissue-specific regulatory elements of the *Drosophila Gld* gene

1

**E.S. Monuki, R. Kuhn and G. Lemke**

Repression of the myelin P<sub>0</sub> gene by the POU transcription factor SCIP

15

**A. Eichmann, C. Marcelle, C. Bréant and N.M. Le Douarin**

Two molecules related to the VEGF receptor are expressed in early endothelial cells during avian embryonic development

33

**E.C. Coucouvanis and P.P. Jones**

Changes in protooncogene expression correlated with general and sex-specific differentiation in murine primordial germ cells

49

**F. Beermann, E. Hummler, E. Schmid and G. Schütz**

Perinatal activation of a tyrosine aminotransferase fusion gene does not occur in albino lethal mice

59

**M. Mallo, F. Franco del Amo and T. Gridley**

Cloning and developmental expression of *Grg*, a mouse gene related to the *groucho* transcript of the *Drosophila* Enhancer of split complex

67

**A.H.J. Müller, V. Gawaitka, X. Ding and P. Hausen**

Maturation induced internalization of  $\beta_1$ -integrin by *Xenopus* oocytes and formation of the maternal integrin pool

77

**A.M. Taylor, Y. Nakano, J. Mohler and P.W. Ingham**

Contrasting distributions of patched and hedgehog proteins in the *Drosophila* embryo

89

**L. Boring, M. Weir and G. Schubiger**

Egg ligation alters the Bcd protein gradient and segmentation gene expression in embryos of *Drosophila*

97

## Issue Contents

115

**A. Ransick, S. Ernst, R.J. Britten and E.H. Davidson**

Whole mount in situ hybridization shows *Endo 16* to be a marker for the vegetal plate territory in sea urchin embryos

117

**M.A. Kuziora**

*Abdominal-B* protein isoforms exhibit distinct cuticular transformations and regulatory activities when ectopically expressed in *Drosophila* embryos

125

**J. Malicki, L.D. Bogarad, M.M. Martin, F.H. Ruddle and W. McGinnis**

Functional analysis of the mouse homeobox gene *HoxB9* in *Drosophila* development

139

**V.V. Ivanenkov, V. Gerke, A.A. Minin, U. Plessmann and K. Weber**

Transduction of Ca<sup>2+</sup> signals upon fertilization of eggs; identification of an S-100 protein as a major Ca<sup>2+</sup>-binding protein

151

**C. Cronmiller and C.A. Cummings**

The *daughterless* gene product in *Drosophila* is a nuclear protein that is broadly expressed throughout the organism during development

159

**F. Guillemot and A.L. Joyner**

Dynamic expression of the murine *Achaete-Scute* homologue *Mash-1* in the developing nervous system
